### 'Dharma' is the only solution of Communalism

It is about 25 years back - 'Babri Mosque' was demolished by a motivated crowd. And afterwards there were a series of unprecedented communal riots, mass destructions and bloodshed spread over the country like a fire. Chain of retaliations against retaliations directly (action) or indirectly (emotion) involved millions of people not only in India but in this sub-continent. This was a 'black-period' in the history of 'secular' India!

Constitution, institutions, education systems have been educating the lessons of brotherhood among all communities since 1947. But these efforts were absolutely failed, in such a crisis period! But why?

Actually, so-called moral lessons of brotherhood never go into the sub-conscious mind of the people. The sense of brotherhood comes from within if the culture of 'fatherhood' would be cultivated. The fundamental lessons of fatherhood is - concept of 'one father'. It comes from 'Dharma' (that protects existence and nurtures becoming) is 'one' and Prophets are the messengers of the same 'Dharma'.

Krishna or Christ, Buddha or Mohammad, Chaitanya or Ramakrishna or Anukulchandra, etc. are the living embodiment of World humanity - where all solutions of existential crisis have been rationally manifested according to the respective ages. They worked to save mankind from unconsciousness. In fact, they tried to root out the inner cause of weakness, i.e. unknown passions of individuals which lock all sorts of possibilities to balance harmonious progress far-sightedness. This path of self-realization to uphold being and becoming of individual and environment is 'Dharma'.

Hence Dharma is one, but the techniques (faith & path) of following the Dharma (law of life & lift) do vary in accordance to time. So Dharma and paths are not same. Secondly the substantial distortion of purity of Dharma occurred from institutionalization of the Seers. Ignoring the Seers, the worship of their sayings began. Thus manipulations in the light of narrow self-interest, detached them from rest and wrongly misused them of the respected communities!

So 'Dharma' only can unite all for ever.

### Woman's 'Liberty' : Real and Virtual

There was an unwanted incident on 31st December 2016 in Bangalore on year end celebration. Many young girls were severely harassed by a mob of men in the eve! *Bharatvarsha* has a tradition of worshipping women as mother for thousands of years and in modern India they are qualified and economically independent. Then why do these incidents happen now?

Mrs. Aparna Roy, a well educated housewife says to us (The Aryan) that, - she was an activist and worked for women's empowerment. She had a close look of terrific pain of young girls suffering from poverty and their fall-down into a dark world. On the other hand, she has also experienced - girls of affluent families due to fulfill desires of free enjoyment how they have been dragged down into the world of open-relationships, drinks, drugs, depressions, and finally on an average they are not successful in family life!

She continues with experiences, - initially she worked to unite girls and to generate mass-opinion to protect right, liberty and safety of women. But she strangely found that - those girls have strong-personality, powerful self-respect, pride for their family-heritage, regardful loving attachment with their par-

ents, those have Ideal centric go-of-life and education, rarely face such a bad situation!

She also found during imparting education - many of the women after literacy become egoist and ignores family peace. But in contrary, there were so many illiterate mothers having great and bright children!

These opposite conditions put Mrs. Aparna Roy in a dilemma to find the root cause of true 'liberty' of woman. What is actual freedom of a woman? What is real womanhood?

Once she found solutions in a message - "Woman's service, conducts, thoughts and words induce such an impulse among men that, they would regard and become charmed, enlightened by 'mother' feeling. The woman's instincts are: constancy, religiousness, nursing, serving, helping, protectiveness, inspiration, and reproduction."

She said - 'Now I believe - real liberty of a woman is in her instinct. If education stands on her instinctive characteristics, none could ever harm her respect and liberty; and she would be successful within her family and also in outer world. Earlier I was after the virtual liberty of woman, not of the real.'

### 'Dharma' and Political Freedom - A discourse

Special on 48th demise anniversary of Sree Sree Anukulchandra

This was an eventful discussion during the movement of political freedom of India, in Dec. 1941. A dialogue began between some visitors (political worker) and Anukulchandra Chakraborty - a World Master and Global Man Maker to be and become of individuals. After an exchange of greeting talks began as follows:

**Worker:** I think nothing is effective without independence of the country, so this should be the priority to all of us.

**Anukulchandra:** Definitely, we must be free.

**Worker:** Then why do you initiate Dharma?

**Anukulchandra:** I also want to know, without Dharma how one can be free? Well, have you ever thought, why have we lost our freedom?

**Worker:** Due to conspiracy of imperialism.

**Anukulchandra:** If there was conspiracy, then why we couldn't avoid it?

**Worker:** We were not united.

**Anukulchandra:** May I know, why we couldn't maintain our unity?

**Worker:** We became selfish, and were suffering from narrow individualism.

**Anukulchandra:** Why did it happen?

**Worker:** This was the weakness of our national character.

**Anukulchandra:** So you yourself say that due to the weakness of our character we had lost our freedom. Now if you don't rapier this disorder, then how will disease be cured?

Here we need Dharma, Ideal culture.

Weakness of man means, complex oriented life and one can't come out from this obsession, unless he is headed towards Ideal and culture. So it comes through Ideal initiation and devotional practice. He who has realized and materialized the facts of being and becoming in His life - is an Ideal. And 'Dharma' is that code of conduct, which definitely upholds the laws of life and lift..... Ideal nurtures and guides everyone according to his characteristics. Such Ideal becomes the center of unity of all, that lay foundation of strong nation building.....
