### Unity in Reality

In the famous Indian movie '3 Idiots', the elder daughter of the Principal had a delivery pain. Due to heavy rain and water logging it was impossible to take her to the hospital. Then Rancho (Amir Khan) and his friends all together saved her and successfully made the delivery.

This nail biting episode is remembered by everybody still today. The lesson of the episode of the movie was not only the intelligence and presence of mind of Rancho but his excellent friendship bonding and an example of friendship unity.

From a family to the country, everywhere unity and mutual cooperation is necessary to perform the needs of survival successfully, joyfully and to manage everything systematically for combating all challenges on the way to progress.

In nature same systematic phenomenon prevails. If we minutely observe the cosmic mechanism, we shall find the whole system is in rhythmic motion. The most interesting and remarkable factor is - each cosmic element (celestial body) is tied by a force with a central body.

For example earth along with the rest of the planets in our solar system are tied up with the central unit 'Sun'. The centripetal force of the planets towards the Sun, is the only cause of their existence. And due to the tension to the common unit Sun, the unity and existence of the solar system are possible.

Similarly, living bodies such as in the human body - all the limbs, organs, nerves, etc. are strongly connected to the brain and dedicated to follow the order. This unit-centricity makes the harmonious integrity of the body, is the only factor of survival and progress.

In family when children are well bonded with regardful attachment to their parents, then family integrity and love get developed. That is the reason of long lasting mutual togetherness, love, harmonious peace and heavenly bliss.

So, total unity in reality in the society is only possible when individuals (politicians, teachers, parents, workers, youth, etc.) find a common all-fulfilling Ideal one as a guide or master or Seer.

### 'Self Employment' : The best fulfillment of the Society

Sri Anup Mitra - a young IT engineer was seated in front of the city's best psychiatrist Dr. Krishna Mishra. He was looking to come out of his present state of depression.

In reply of Mr. Anup, Dr. Mishra asked - "You wanted to work for earning money, now you get it; but still you are unhappy! Why, do you know?"

Because you are working only for money, you wait for the 30th day of every month. You neither can like your job, nor you may love your employer. That creates a negation in you. This is the cause of your present state of mind. So either you love your employer and work for his pleasure; or you work independently under your ownership. I think the second choice is more challenging, but the best for your potentials."

This is the story of the most of the job holders and employees. This situation gradually makes them idle, lazy, remiss, dishonest, slave; lack of inquisitiveness and less energetic. These become the cause of the individual's mental disorder, family disintegration, economic downfall, corruptions, social unrest, etc.

In contrary self-employment or individual ownership directly connects one with the authority of his work, production,

profit and that leads him towards innovations, development of scientific aptitude, sincerity and get family involvement.

Overall, it makes a progressive self-reliance progression, social integrity and human resource development. This gives strength to the country to get control over the global economy.

### 'Hindutva' gets merged into Aryanism

Hindutva originates from Hinduism. Historically the word 'Hindu' comes from the river *Sindhu* or Indus in north-western part of India.

A section of the Aryans with the culture of humanity, migrated from northern global part through central Asia to Indian (Indo-Aryan) subcontinent about 3000 BC (5000 years ago). First they settled at the banks on the rivers *Sindhu* (most western side), *Saraswati*, *Drishadwati*.

The Persians used to call the river *Sindhu* as 'Hindu' and those (a branch of the Aryans) settled down at the river *Sindhu* were named as Hindu by them. Because they used to pronounce the letter 'स' (sa) as 'ह' (ha), thus the word *Sindhu* became Hindu and their culture (practice, rituals, belief, customs) and literature (*Puranas*, *Ramayana*, *Gita*, etc.) were named as

Hinduism or *Hindutva* or *Sanatan-Dharma*. So, in fact Indians have no root connection with *Hindutva*, rather their forefathers were all Aryans.

Most interestingly origin of all other religious ideas such as Buddhism, Christianity, Islam, etc. is also Aryanism. The common father (many generations ago) of Jesus and Mohamed was Abraham. He was an Aryan Brahmin, living in central Asia. The same person was *Brahma* a Godly person to

Indo-Aryans (Hindu). And Buddha was an Aryan Kashtriya (*Sakalya* clan), same of Rama. And the *Veda* is the original scripture of Aryans. The Bible and Quran are the new versions of the *Veda* as per the time-place.

So Aryanism is a universal way of Global unity where *Hindutva*, and rests also dissolve together into it. So, can't we all be re-connected in Aryanism?

### World News Bulletin

**G20 financial leaders acquiesce to U.S., drop free trade pledge:** Financial leaders of the world's biggest economies dropped a pledge to keep global trade free and open, acquiescing to an increasingly protectionist United States after a two-day meeting failed to yield a compromise.

**Ignoring Scottish referendum mandate would 'shatter' UK structure:** *Sturgeon* : Refusal by Britain's prime minister to discuss an independence referendum would "shatter beyond repair" the United Kingdom's constitutional structure, Nicola Sturgeon told her Scottish National Party on Saturday.

**U.S., China soften tone, say to work together on North Korea:** The United States and China will work together to get nuclear-armed North

Korea take "a different course", U.S. Secretary of State Rex Tillerson said on Saturday, softening previous criticism of Beijing after talks with his Chinese counterpart.

**PM Modi picks hardliner Yogi as CM to lead India's most populous state UP:** Indian Prime Minister Narendra Modi picked Hindu hardliner Yogi Adityanath, as Chief Minister to lead its most populous state UP after his party BJP won a landslide victory winning 325 over 403 seats.

Yogi, who has been accused of inciting violence against India's Muslim minority, but he will be Chief Minister in UP for next 5 years. People have high expectations from his leadership.
