

3M Man Making Mission
An Educational Program of
Indoaryan School of
Human Resource Development

- 1.** I do feel that each individual requires a true Master in life in whom - all the faculties of past knowledge have been meaningfully materialized to make evolve everyone according to the individual's distinctiveness to adjust complexes and passions.
- 2.** I promise that - I shall try my level best to manipulate and turn away any impulse of inner complexes to fulfill the directives of Master-man for the greater cause of life.
- 3.** Whenever any wish for good-deed shall come in mind, immediately I shall apply it in practice.
- 4.** I shall regularly go with self-realization and self-reformation, along with inquisitive-service towards my environment.
- 5.** I must overcome any situation of 'go-between' from within - that comes in between me and my success.
- 6.** I shall never encourage the 'libido-distortion', which weakens the concentric-go-of-life.
- 7.** I should not make any difference among the Seers (world Masters), who had fulfilled the past Seers by their way-of-life and I shall also have to be regardful to my own forefathers, as myself is the present extension of my past.
- 8.** I accept the natural bio-chemical law of - 'grouping of hereditary character of individual' and 'science of eugenics'; and reject the disastrous hypogamous (pratilom) sexual relationship (between more-evolved female egg & less-evolved male sperm).
- 9.** Self-existence is directly varies with the existence of the social and bio-chemical environment. I understand the evolving mechanism of socio-environmental eco-system and I want to develop the realization of 'oneness' feeling with this total ecology by spiritual realization and scientific awareness.
- 10.** I realize, primary goal of 3M is to transform each individual bio-psychically into the 'man of wisdom' which may also change the society into the all-favoring socio-economic world order - the Global humanitarian divine Communism.
